

Bernard® Shortstub™

Stick Electrode Holder

Issued September 2023 • Index No.SS/1.6

Quick Specs

Capacity

400 amps
at 60% duty cycle

Electrode Size

1/16" - 1/4"
(1.6 mm - 6.4 mm)

Weight

17oz
(481 g)

Length

8 3/4"
(22 cm)

Cable Connection

Model "B" large ball point
screw connection

Cable Socket

19/32"
(1.5 cm)

Bernard's Shortstub stick electrode holder has maintained its time-tested design for decades.

Electrodes can be used to within one inch of the high heat, high impact head compared with the normal three inches of the electrode that is leftover when using a typical tong-type holder.

Bernard Shortstub greatly improves productivity because it is designed for quick, easy installation of electrodes and it is built to last with a proven high impact, high heat replaceable head.

Over 2,000 pounds of gripping pressure enables the electrode to be bent to a desired shape for access to difficult welds.

Part Number: 40B

Made with
Pride and without
Compromise in the **USA**
